

Dulux® Lifemaster™

“The Clean Air Choice!”™

Dulux Paint was the first paint brand in North America to offer interior latex paint free of organic solvents. Now, Dulux Paint re-introduces the award winning Lifemaster in a more durable acrylic formula. While maintaining the benefits of fast “back to service” for painted rooms, Dulux Lifemaster now offers longer service life for commercial and institutional building owners and managers.

- Virtually no odor during application
- No residual paint odor after drying for early re-use of rooms
- Increased scrub resistance and washability
- Meets all current and anticipated VOC regulations
- Meets all LEED® specifications established by the US Green Building Council
- Approved by Master Painter’s Institute under “Low VOC/ Institutional paint specifications”
- Certified by GREENGUARD Environmental Institute

Paper is manufactured with 100% post-consumer fibers.
